RRP High Power Turbine Kit for Swift Sport ZC33S

We will release RRP high power turbine kit for Suzuki Swift Sports ZC33S user.

We thoroughly researched the K14C engine, pursued excellent response and power and developed them. It is a turbine kit aiming at ease of handling on the street and power of mower.

We thoroughly research the K14C engine and develop pursue excellent response and power. It is a turbine kit aiming at ease of handling on the street and more power up.

We injected all the know-how we tested on the Tsukuba Circuit in the REV Speed Super Battle 2018!

The compressor housing on the intake side has been enlarged, and absolute wind volume has been gained to increase power. On the exhaust side too, the turbine wheel was enlarged to reduce the exhaust pressure and pursue good response.

The performance has been further improved by remapping the data designed for this turbine kit to the Super ROM ECU.

This product is a genuine turbine replacement type, so mounting can be done by bolting it on.

We adopted a reliable Mitsubishi Heavy Industries,Ltd. turbine body.
